

DCSVintage Repairs

Serviced by DCSVintage

These Fender ® amplifiers helped define the sound of Surf, Rock, and Country Music in the Mid 1960's.

Classice like this Gibson GA20 circa 1958 are our specialty. Over the last few years these small amplifiers have been rediscovered. Our customers have raved about the tone and find there is no substitute for the real deal!

This early sixties Gibson Scout is another fine example of vintage that is both affordable and has great tone.
